Re: Resourcing for First Peoples' Genocide Claim— Thorpe v Windsors, UK, Victoria, Australia.

I refer to the document **Evidence 10** of Robert Thorpe in the Yoorrook Royal Commission, Friday 22 December 2023⁶ delivered to your King Charles III by international express post on Monday 25 December 2023.⁷ Note pages 7 to 16 —as well as **Evidence 1 to Evidence 9** at pages 54 to 70.

As a victim of your genocide (genocide of First Peoples here by your royal monarchic crime family and your three kleptocratic governments and officials of UK, Victoria and Australia), I require access to top international legal resources to formulate and submit my genocide claim to the Windsors, the UK, State of Victoria and Commonwealth of Australia on behalf of certain First Peoples (myself, my families and the several other First Peoples my families are connected with).

There will also be an ecocide claim for destruction of country.

I require each of the four numbered parties above to commit forthwith to each paying \$250,000.00 of my future legal bills (up to \$1 million in total) incurred in this matter.

I intend initially to engage some local firms of Aboriginal solicitors to brief Geoffrey Robertson, Jennifer Robinson, Amal Clooney and Kathryn O'Byrne of Doughty St Chambers in London and Tony McEvoy of Jordan Chambers in Sydney to advise on other counsel and firms with relevant areas of expertise.

I expect that many other First Peoples will also require similar assistance in resourcing legal expertise to formulate Genocide Claims and Ecocide Claims.

I expect that We will require further commitments from the four parties (Windsors, UK, Victoria, Australia) to pay further legal bills in formulating Our Genocide and Ecocide Claims.

It should be obvious that until these fundamental truth-telling claims are properly formulated by First Peoples and admitted by the four parties that no peace treaties can be negotiated to clarify the basis on which non-First-Peoples may be permitted by First Peoples to remain on Our Lands.

It should also be obvious that the four parties should declare immediately an end to all hostilities against First Peoples and an end to any coercive control of First Peoples.
